Start serving up fast food profits with **an initial investment of only \$195.20** (first and last payment, and \$50 processing fee). If you have a satisfactory banking history, more than 3 years with good credit, and can provide the leasing company with 3 good trade references, you may qualify for a Quik n' Crispy® lease. Typically, we will find out within 24 hours from submission of your lease application whether you are approved to lease a Quik n' Crispy.

Leasing conserves your cash, and may provide you with tax advantages. A prepayment of \$195.20 is your initial lease payment for a 60 month lease on a mechanical unit. After making all of your monthly payments, you have the option of returning your Quik n' Crispy or purchasing it for the 10% residual. The purchase option price for the mechanical model is \$277.00. All figures are estimates as rate factors do fluctuate. Payments are plus the applicable sales tax.

Prices below include \$75 in freight & handling for the GF II and \$200 for GF5.
